

<i>Product name</i>	DEKAs Plus chewable tablets
<i>Pharmaceutical form</i>	chewable tablet
<i>Quantity</i>	60
<i>Supplied in</i>	White high-density polyethylene bottle with Child Resistant Closure
<i>Classification</i>	Food for Special Medical Purposes (FSMP)
<i>Product Description</i>	DEKAs Plus chewable tablets is a food for special medical purposes intended for the dietary management of patients with cystic fibrosis. DEKAs Plus is a multivitamin and mineral supplement that contains higher amounts of fat-soluble vitamins. DEKAs Plus utilizes a clinically tested delivery technology to enhance absorption of fat-soluble vitamins and nutrients.
<i>Indications</i>	For the dietary management of patients with cystic fibrosis on the specific recommendation of a Cystic Fibrosis specialist.
<i>Important notices</i>	Use only under medical supervision. Cannot be used as a sole source of nutrition. Can be used from the age of 4 years. The product poses a health hazard if consumed by persons who do not have the disease (s), disorder(s) or medical conditions for which the product is intended.
<i>Contraindications:</i>	Use during pregnancy and/or combined use with anticoagulants only after consultation with a doctor.
<i>Directions for use and storage</i>	Do not use if the seal is broken or missing. Keep out of reach of children. Store at room temperature. Take with meals.
<i>Recommended dosage</i>	Age 4 to 10 years: 1 chewable tablet daily or as directed by physician. Over age 10: 1-2 chewable tablets per day as directed by a physician.
<i>Allergens</i>	None
